We are making it easy... by offering State of the Art Digital Printing.

With Digital Printing you can save money, increase productivity and get in and out quickly.

Come in and have a seat, pull up your files and let us know when you are ready to get printing. We can have you in and out in as little as five minutes.

Planning your Printing

Bleed Area.

To ensure that your image goes to the edge of the desired art board please extend your image, color or text past the edge of the art board in the software you are designing in. All prints (minus large format) will have a white border of .25". If you need your print to fill on the entire page, with a full bleed, just print one page size up.

Be aware of the .25" margin around the papers edge.

Extend your document bleed to the outer border on the artboard in your design software.

Digital Printing Pricing

Prices pertain to digital prints as well as color copies from the glass.
